No candidate may offer in Sections A and C together two languages of the group Italian, Spanish, Portuguese or two of the group Norwegian, Swedish, Danish.

Only a candidate who takes two modern languages in Section B may offer Latin or Ancient Greek as an auxiliary language.

Instead of an auxiliary language a candidate whose mother tongue is an Indian language may offer as subject or other Physical Anthropology or Social Anthropology.

For Astronomy (38), Geography (42), Physical Anthropology (43), and Agriculture (44), other appropriate testing will be required. There will be no laboratory test in part of the examination.

33. From the marks assigned to candidates in each subject such definition will be made to the Civil Service Commissioners may deem necessary in order to ensure that no credit be allowed for merely superficial knowledge.

34. Moreover, if a candidate's handwriting is not easily legible a further selection will, as this account, be made from the total marks otherwise assigned to him.

35. A list of the competitors shall be made out in order of their proficiency as disclosed by the aggregate marks finally awarded to each competitor, and in that order in which competitors, up to the determined number of appointments, as are found by the Civil Service Commissioners to be qualified by examination, shall be designated to be selected candidates for the Indian Civil Service, provided that they appear to be duly qualified in other respects.

Should any selected candidate become disqualified, the Secretary of State for India will determine whether the vacancy thus created shall be filled or not. In the former case the candidate next in order of merit, and in other respects duly qualified, shall be deemed to be a selected candidate.

*Port St. George, January 7, 1923 (G.O. No. 13, Finance).*

**No. 16.**—The Conference of Representatives of Government Printing Establishments in India held at Delhi in December 1922 suggested that both in the interests of economy, and for the benefit of the reader, a system of printing in double column on folio paper should be substituted for the present system. The Government have considered the suggestion and are of opinion that the system of printing in double column on folio paper may for the present be adopted with advantage in so far as the printing of the Port St. George and District Gazette is concerned. They accordingly direct that with effect from March 1923, the Port St. George and District Gazette be printed in double column on folio paper instead of in single column as at present.

A statement showing the reasons which have moved His Excellency the Governor-General in exercise of the powers conferred upon him by section 31 (3) of the Government of India Act to annul to the Madras Hindu Religious Endowments Act, 1922.

#### Statement.

In view of the large number of memorials which have been addressed to the Governor-General in regard to the Madras Hindu Religious Endowments Act, the necessity of which passed His Excellency is withheld his assent, and in view of the difficulty of sending individual replies to the various memorials, His Excellency concludes that it is desirable that he should make a public announcement of the reasons why he has now assented to the Act.

5. The large number of memorials received and the variety of arguments advanced therein and by the departments which stated upon His Excellency in support of the contention that the Madras Hindu Religious Endowments Act should not become law have necessitated an anxious and careful consideration of the matter. In the first place, it has been urged that not information received in the passage of the Bill through the Provincial Legislature. It has been further pointed out that during the passage of the original Bill amendments were introduced which required the previous sanction of the Governor-General under section 31A (2) of the Government of India Act and that such sanction was not obtained. The purpose to the Act, however, remains the defect to be cured by the giving of assent. The statement is given now not such as would have justified the refusal of assent and there is, therefore, no reason why the defect should not be cured by assent. In this regard the Bill was in no way prejudicial. In the earlier days of the referred consideration the new law of taxation laid down in the Government of India Act was not well known and was therefore ignored. But it is now that the Governor-General found it necessary to be given to withhold his assent from an Act passed by a Local Legislature and assented to by the Governor.

6. It is contended that, whereas as a condition of the Council took place after the Bill was first passed in April 1922, there was no power under section 31A of the Act to return the Bill for reconsideration by the new Council, and that, in any case, in the circumstances the whole Bill should have been thrown open to reconsideration. It has been suggested that discussion in the Council was hampered by the terms of the Governor's Message in which he brought to the notice of the Council the amendments recommended by him and by the President's message as to the scope and expediency of amendments at the instigation of the Government as the Bill. The Governor-General after a careful consideration of these arguments is satisfied that in substance they afford no ground for withholding his assent. His Excellency has arrived at the same conclusion in regard to the assertion that the Board of Directors of the Hindu Religious Endowments in regard to the Bill, should have passed it in the consideration of the Governor-General. The Board referred to was a division in the Governor as to whether a particular Bill is of such a nature as to require that it should be assented.

4. On the merits of the Bill, the objections raised by the memorialists and by the departments have been numerous and varied. It is unnecessary to deal with these in detail. It must be enough said that no measure is free from imperfections as well worthy of all the wisdom of the community which it touches. An Act must contain provisions which are objectionable in principle before the Government should consider them. His Excellency has given his most careful attention to the representations which have been made to him in regard to the provisions of the Act. He is satisfied that there is a large amount of dissatisfaction and apprehension in regard to some portions of the Act and he himself has doubts as to the expediency of some of its provisions. In particular, he is unable to regard as satisfactory the procedure laid down for the modification of officers already appointed or destined to have been appointed under the Act. The measure, however, is one which was passed by a majority of the Local Council of the Presidency which included, in fact, a majority of the members of the community primarily affected. It was not to be expected that a measure of this importance would be enacted in the first instance as an unimpeachable law and there would be as defects in the action of the Ministry who was responsible for the measure as of the Council which passed it, if an amending Bill were to be introduced at an early date to remedy defects which have been pointed out. His Excellency, therefore, being satisfied that the measure as a whole is fair and the merits of the Local Government as an adequate remedy available in the local legislation, whether the removal of defects in respect of which there is substantial agreement, has decided to signify his assent to the Madras Hindu Religious Endowments Act.

V. T. KRISHNAN ACHARYA,  
Secretary to Government.

## DEPARTMENT OF AGRICULTURE.

## REPORT ON THE PRESENT CONDITION OF THE CUPRIUM CROP OF 1924-25.

The crop of the "Coconut" tree in this district has been benefited by the bright weather since November. Prospects are good and yields above normal are expected. \*

2. The sowing of early sown cotton in the "Barthema" and "Westons" tract has been increased. The yield has been above normal in the various blocks of Bally owing to the favorable season and normal in the rest of the District. The highest or late sown crop is now in flower and both. Normal yields are expected in Anantapur and Cuddapah. In Bellary, the crop has been affected to some extent by the drought in November while the attack of the spotted boll worm is said to be early maturing varieties in both Anantapur and Bellary, yields are therefore expected to be slightly below normal in these two districts.
